SAFE	866-509-7233

All of these services can be accessed by calling 866-509-SAFE (866-509-7233).

SAFE believes in every woman's right to health and well-being as well as in their competency to protect and help themselves, their loved ones, and their communities.

An all-volunteer, non-profit program advocating for the health and safety of women in Philadelphia's sex industry.

Project SAFE is currently in need of volunteers. If you are interested in joining us to help out, call **866-509-SAFE.**

Services We Provide:

• **Safer Sex Supplies**

Male condoms (regular and flavored)
dental dams
(for oral sex on a woman or anal rimming)
female condoms
(worn by a woman; can be put in up to 6
hours before intercourse)
water-based lubricant, etc.

Remember that flavored condoms are only
good for oral sex. They are made thinner
than regular condoms and will break
easier if used during intercourse.

• **Bad Date Sheet**

Our bad date sheet lists brief descriptions
of men who have attacked and/or raped
women while they were working. Bad date
sheets are only given to women. Report a
bad date by calling 866-509-SAFE and
leaving a description of the attacker's
physical appearance, the car, where it
happened and the time & date of the
attack.

• **Harm Reduction Supplies**

We distribute sterile water, antiseptic
wipes and alcohol pads along with other
supplies during outreach. We also have
information on safer injection practices
and overdose prevention available.

• **Deliveries**

We only deliver supplies to women. Call
866-509-SAFE any time to arrange for a
delivery of condoms, bad date sheets, etc. If
you leave a message on our machine,
provide a number where we can reach you,
the best time for us to call you back, and
your first name. We try to respond to each
request within 24 hours.

• **Referrals**

Contact our case manager by calling 866-
509-SAFE if you need help with:
welfare
detox/drug treatment
housing
shelter
medical care
public assistance
mental health care
and legal aid.

• **Support**

We support women who have been attacked
or raped by reviewing the options available
to them, answering questions, transporting
women to the hospital for an exam, or
helping to file a police report.

• **Information**

We offer harm reductive information about:
heroin
cocaine
speed/meth
hepatitis C
safer injection
a bad date sheet
female condoms
or the real deal about drugs and pregnancy.

Project SAFE's mission is to promote human rights-
based public health among women working in
Philadelphia's sex industry. SAFE is an organization
dedicated to ensuring the health, safety and
survival of women on the street by providing
advocacy, education and support using a harm
reduction model. SAFE seeks to reduce the spread
of HIV, Hepatitis C and sexually transmitted
diseases (STDs) among working women, promote
health and safety by arming women with relevant
information and resources, and connect women to
programs and services which are appropriate to
their needs and interests.
